Dear Hiring Manager,

I am excited to apply for the Full Stack Developer position at your company. With a BTech in Computer Science and hands-on experience in React, Node.js, MongoDB, and MySQL, I am well-equipped to design, develop, and maintain robust web applications. My proficiency in both frontend and backend technologies aligns perfectly with your requirements, and I am eager to contribute to your team's success.

In my previous roles, I have successfully built responsive UIs using React, optimized backend logic with Node.js, and managed databases (both SQL and NoSQL). I have also implemented RESTful APIs, integrated third-party services, and ensured application security and scalability. My familiarity with Git, CI/CD pipelines, and cloud services further enhances my ability to deliver efficient, collaborative solutions.

I am particularly drawn to this role because of its emphasis on seamless performance and teamwork. I thrive in collaborative environments and am confident in my problem-solving and debugging skills. I would welcome the opportunity to bring my technical expertise and passion for innovation to your team. Thank you for considering my application. I look forward to discussing how I can contribute to your projects.

Best regards,

John Doe

I am **excited** about this opportunity and would love to contribute my skills to your team! Feel free to connect with me at **abc@gmail.com** or **35536598985**.

Best regards,

john doe
